

SERVICES & CLIENTS OVERVIEW

Overview

Since 1973, Texas Fifth Wall Roofing (Fifth Wall) has pioneered commercial membrane roofing technologies in Texas, and is active in green technologies including solar and vegetated roofing systems.

Fifth Wall has a proven production process that assures accountability in meeting construction deadlines, as well as reducing risks and disruptions to building operations. With extensive experience, a skilled work force, and a fleet of fully inventoried service vans, Fifth Wall has the strength to execute both small and large-scale installations and repairs. Our attention to best practices, quality control and safety programs ensures timely and effective execution. Furthermore, Fifth Wall has long-standing, strategic relationships with all major manufacturers and distributors to ensure a full spectrum of product offerings.

Responsiveness to customer needs, experience, leadership, innovation, and integrity has established Fifth Wall as an award-winning leader in the roofing industry.

Services

1. New Roof Construction

Fifth Wall specializes in single-ply membrane roofing systems, including TPO (thermoplastic polyolefin), EPDM (ethylene propylene diene monomer) and PVC (polyvinyl chloride) systems

2. Reroofing

- Assessment/condition analysis and report
- Inclusive and comprehensive bids
- Continuous communication
- Strict adherence to schedules and timing
- Minimal disruption of tenants

3. Service and repair

- Fifth Wall has fully inventoried service vans driven by skilled technicians
- Satisfaction guaranteed
- Exclusive ProVigil Roof Protection Program prevents minor issues from becoming major expenses. The program includes a roof condition analysis, roof asset management guidelines, semi-annual inspections, repairs and debris removal, and a Certificate of Maintenance

Fifth Wall Advantages

- Innovator in roofing technologies
- Responsive and professional service
- Proven and demonstrable production process
- Strength to execute large-scale projects
- Extensive industry experience
- Leader in industry best practices
- Commitment to relationships and integrity over the bottom line
- Award-winning company
